Student Jobs

Where seniors earn money in Hutchinson, fall 2004

Money is a slow grind. Each shift pays a flat amount, and each one uses up an evening or a weekend day. Pick a job, work your shifts, and watch your weekly academic check.

How it works

- **Pay is per shift,** not per week. Weekly pay is the pay per shift times the shifts you work.
- **Max / wk** is the most shifts that job allows in a week.
- **Minimums** are ability scores. Jobs marked None are open to anyone.

Things to know

- School runs about 8:00 to 3:15, so evening shifts start after the bell.
- A shift that ends at 11 pm or later adds **one level of exhaustion**.
- Friday night jobs compete with the game. Skipping it costs standing.
- A tutoring evening can count as a study evening for the weekly academic check.
